“The henna is so simple to use. You can't possibly overdo it! Why would you continue to dye your hair with those store bought chemicals when you can get GREAT results with Morrocco Method 100% Plant Based Henna.

--Kylie C., Taos, N.Mex.

Morocco Method Henna can be used as often and frequently as desired. Henna can also be applied to recently dyed or bleached hair.

Each shade will look slightly different on each individual; Morocco Method Henna works subtly, bringing out the best in one's natural hair color. Of course, for the adventurous, each color can be mixed with others to create new shades. Individual experimentation is encouraged!
